

GUARANTEED MAXIMUM PRICING

You are carrying the entire risk of the construction cost estimate without any guarantee that it's complete and accurate.

We provide guaranteed cost estimates for all proposed project solutions—when you have guaranteed pricing, you eliminate budget risk.

You'll never be under capitalized because design and construction costs more than your budget, you'll have our guaranteed maximum pricing. With us, you have a cost estimate guarantee; thus, your project is not at risk of going over budget.

With our Guaranteed Maximum Pricing service you:

- Eliminate unnecessary project delays and budget overruns
- Eliminate the need for additional project financing
- Know the entire lifecycle cost, ensuring we select the right solution and the correct allocation of capital expenditures
- Have a guaranteed budget and estimate, eliminating the need to spend additional money on third-party cost consultants and preserving capital for your project
- Identify an accurate requirement for project capital early on, ensuring a successful project within budget
- With our stipulated price method of implementing design build, you have price certainty. We specify the cost for configuration, features and materials, not the design team—we fit the pricing to your budget and specific project requirements.
